

# Mining Machines

(2024) Vol. 42 Issue 2

Research Institute

Quarterly of Science and Technology

July 8, 2024

## Pages 90-107

Krzysztof ROZWADOWSKI, Artur KONEWECKI, Rafał PASEK, Szymon MOLSKI

**Results of stress measurements on the guide rail supporting beams in a hoisting installation operated in the shaft Regis in relation to modelling data**

## Pages 108-118

Tomasz GÓRAL, Damian DZIENNIAK

**The influence of technological parameters of plasma cutting on the quality and surface roughness when cutting thick steel sheets**

## Pages 119-128

Sonia PIWOWAR

**Advance rams of longwall powered roof supports – modernization**

## Pages 129-138

Piotr TOŚ, Anna MANOWSKA, Muhammad Waqar HASSAN, Artur DYCZKO

**HADES: Security and Monitoring System for Selected Technological Processes in Polish Underground Mining**

## Pages 139-164

Artur DYCZKO

**Cybersecurity of IT/OT systems in key functional areas of a mining plant operating on the basis of the idea of INDUSTRY 4.0**

## Pages 165-173

Henryk BADURA, Witold BIAŁY

**Extraction of methane from the closed mine “MOSZCZENICA”**

**KOMAG Institute of Mining Technology**

Pszczynńska 37, 44-101 Gliwice, POLAND
